

Using the Android App to read WILBOR eBooks

Step 1: Search the App Market for **Overdrive Media Console** and download the App.

Step 2: Open the Overdrive app, press the **Menu** button, and select **App Settings**.

Step 3: Once the Settings screen has opened, scroll down until you see the **Adobe ID** and **Password** fields.

Step 4: Either enter the Adobe ID and Password you created previously in using WILBOR devices, or touch **Get Adobe ID**. Go through the Adobe ID process and enter your Adobe ID.

Step 5: Press the Menu button and touch **Get Books**.

Step 6: Touch **Add a Website**. This step only needs to be done once.

Step 7: In the **Find a Library** box, type **WILBOR**.

Step 8: Find and select Des Moines Public Library in the list of libraries.

Step 9: Touch the  next to WILBOR to add it to your list of websites.

Step 10: Press the **Menu** button and select **Get Books**, the WILBOR website should be listed. You can now go to the WILBOR website to browse and check-out eBooks and mp3 audio books.

Note: You can only send the book to one device.

Early Return: From the "Library" (list of books) in the Overdrive Media Console on your device, click on **Edit** in the upper left hand corner. A column on the left will appear, with a red **Delete** button; click on that button. Choose **Return and Delete**.
